GEOMETRY QUEST · WORLD 8

3D Shapes & Nets

WORKSHEET

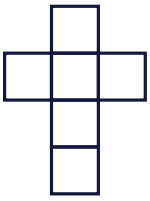
Name _____ Date _____ Stars I give myself: ☆ ☆ ☆

1 Complete the table. Then check that faces + vertices − edges = 2 for every shape.

shape	faces	edges	vertices	F + V − E
cube	6	12	8	
cuboid				
triangular prism				
square-based pyramid				
tetrahedron				

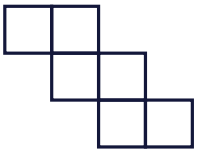
2 Which of these nets fold up into a cube? Tick them. (Imagine folding, or copy them onto squared paper and try.)

A

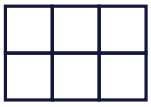


B

C



D



3 Name the 3D shape.

I have 6 square faces. _____

1 square face + 4 triangles meeting at a point. _____

I have 2 flat circles and 1 curved surface. _____

I have one curved surface and no edges at all. _____

4 Cut out the dice net on the next page, fold along the lines and glue the tabs. Opposite faces of a real dice add up to 7. Do yours?
